

# PATIO DOORS

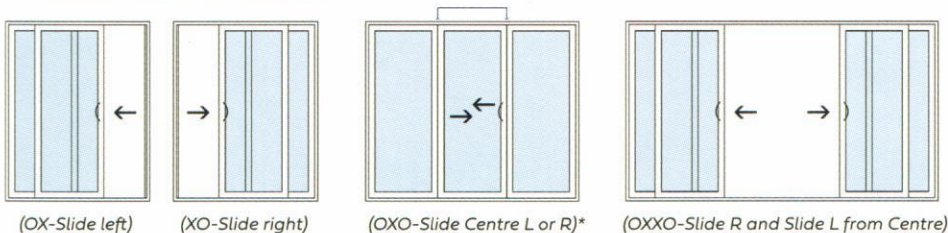

Multiple Hardware Options • Colour Options Available • Grille Options Available

## Internal Mini Blinds

Internal mini-blinds are sealed between two panes of tempered safety glass. Finger tip controls allow the blinds to be raised or lowered and adjusted as needed to allow for light or privacy. No cleaning is ever required!

\*3-Panel OXO is a sidelite and sliding panel combination.

*From the minute we walked into the Linton showroom and until we said goodbye to the installers, our experience was top notch. Everyone we dealt with was courteous, helpful, friendly, and above all, knowledgeable and professional. The windows, all 21 of them, and the front door and patio door are gorgeous. All this was done in 2 days! We would highly recommend this wonderful company! You won't be disappointed. – Susan and Garry*
